What is claimed is:

- 1. A greeting card melter comprising:
 - a panel enclosure consisting essentially of a shaped recess and a flange;
 a closure panel releasably secured against said panel enclosure; and
 a molded wax body having only a wax formulation disposed in a cavity defined
 by said shaped recess and said closure panel and substantially
 conforming to the shape of said cavity.
- 2. The greeting card melter of Claim 1 wherein said flange has a hanging openingwhereby said greeting card melter may be hung in a retail display environment.
 - The greeting card melter of Claim 1 wherein said wax formulation contains a fragrance.
- 15 **4.** The greeting card melter of Claim 1 wherein said wax formulation contains a fragrance and is colored.
 - 5. The greeting card melter of Claim 1 wherein said panel enclosure is made of a plastic material that is transparent, translucent or solid.

- 6. The greeting card melter of Claim 1 wherein said shaped recess contains a message, a design, or both integrally formed within said shaped recess of said panel enclosure.
- 7. In combination, a wax melter and a greeting card, said combination comprising: a wax melter having a wax body having only a wax formulation, said wax melter capable of being broken into pieces and used in a wax burner in place of a wax tart; and
 a greating eard having a loaf configured to hold said way melter in removable.
 - a greeting card having a leaf configured to hold said wax melter in removable engagement.

- 8. The combination of Claim 7 wherein said wax melter has a front surface containing a message, a design, or both integrally formed within said wax body.
- 15 **9.** The combination of Claim 7 wherein said wax melter further includes a panel enclosure consisting essentially of a shaped recess and a flange and a closure panel releasably secured against said panel enclosure.
- 10. The combination of Claim 9 wherein said flange has a hanging openingwhereby said greeting card melter may be hung in a retail display environment.

- 11. The combination of Claim 9 wherein said shaped recess contains a message, a design, or both integrally formed within said shaped recess of said panel enclosure.
- The combination of Claim 11 wherein said panel enclosure is made of a plastic material selected from the group consisting of transparent, translucent and solid.
 - **13.** The combination of Claim 7 wherein said wax formulation contains a fragrance.
 - 14. A greeting card system comprising:

10

15

- a plurality of greeting card melters wherein each of said plurality of greeting card melters comprising:
 - a panel enclosure consisting essentially of a shaped recess and a flange;
 - a closure panel releasably secured against said panel enclosure; and a molded wax body having only a wax formulation disposed in a cavity defined by said shaped recess and said closure panel and substantially conforming to the shape of said cavity; and
 - a plurality of greeting cards wherein each of said plurality of greeting cards has a leaf configured for receiving at least one of said plurality of greeting card melters.

- 15. The greeting card system of Claim 14 further comprising a retail store display for presenting said plurality of greeting card melters and said plurality of greeting cards configured for receiving said greeting card melters.
- The greeting card system of Claim 14 wherein said wax body of each of said plurality of greeting card melters has a front surface containing a message, a design, or both integrally formed within said wax body.
- 17. The greeting card system of Claim 14 wherein said flange of said panel
 enclosure has a hanging opening whereby said greeting card melter may be hung in a retail display environment.
 - 18. The greeting card system of Claim 14 wherein said shaped recess contains a message, a design, or both integrally formed within said shaped recess of said panel enclosure.

- 19. The greeting card system of Claim 14 wherein said panel enclosure is made of a plastic material that is transparent, translucent or solid.
- 20. The greeting card system of Claim 14 wherein said wax formulation contains a fragrance.
